ACE600ST

6.5" 70V TRIMLESS COMMERCIAL CEILING SPEAKER

100W • 70V / 25V / 8Ω • 50Hz - 20kHz • White

Ordering

Model ACE600ST • Sold as a single speaker • White, paintable magnetic grille • 10-year warranty

If your next job calls for numerous in-ceiling speakers and long cable runs, the OSD Audio ACE600ST is a durable, affordable solution that looks as good as it sounds. This 6.5" trimless commercial ceiling speaker works on 70V and 25V distributed audio systems, or on an 8-ohm amplifier, and is made for background music and paging in restaurants, offices, schools, retail stores, malls, museums and other large venues.

Built for Business Audio

A durable, affordable 70V in-ceiling speaker for background music and paging in restaurants, offices, schools, retail stores, museums and other venues - and for any job with many speakers and long cable runs.

Flexible Tap Settings

A dual 70V/25V transformer dial offers 20W, 10W, 5W and 2.5W taps, or an 8-ohm setting for a standard amplifier.

Clear Music and Voice

A 6.5" polypropylene woofer with rubber surround handles smooth lows and mids, and a 1/2" PEI dome tweeter keeps announcements and vocals crisp.

Low Loss Over Long Runs

High-impedance 70V lines carry the signal at low current, so sound travels long distances with very little power loss or sound degradation - ideal for large commercial layouts.

Trimless and Easy to Install

Templates and built-in dog-ear brackets make installation quick, and the spray-paintable magnetic grille blends into the ceiling.
