

NERO VOX Echo Dot In-Wall Amplifier

Our NERO VOX In-wall Amplifier harnesses the capabilities of Alexa and the Echo Dot and allows you to stream music from room to room without switches, dials, or touchscreens. An Elegant Multi-Room Audio Solution Similar to installing in-wall speakers, the NERO VOX is flush mounted and installs directly into a drywall surface with dog ear clips. The Echo Dot fits securely inside the docking station enclosure, the hidden amp, and paintable cover trim blend into any décor.
