

NERO DUALX8 DSP Subwoofer

The Nero DualX8 DSP is a powered stand-alone subwoofer that reproduces extremely realistic low frequencies sound effects (bass) for home theaters, media rooms, hi-end listening spaces, and gaming rooms. Operating with 300 Watts of dynamic power, the DualX8 DSP includes one 8" active woofer and one 8" passive woofer for optimal sound as well as the latest Digital Sound Processing technology that can be controlled through a smartphone or tablet. Download the free iWoofers app to experiment with phase control, crossover settings, and other fine tuning features.
