

FORZA 5 Pendant Speaker

Designed for distributed audio systems in home and commercial settings, our Forza 5 hanging pendant speaker is ideal for spaces with irregular or uneven architectural features such as high vaulted ceilings. Pendant loudspeakers resemble lighting fixtures and blend into high-end home environments, malls, restaurants, bars, museums and other spaces where multiple speakers are required and where speaker placement is challenging. The included cable and hook can be suspended from poles or other fixed structures so placement is flexible and all cables are hidden for an aesthetically-pleasing appearance. The Forza 5 pendant speakers are a 2-way design that offers 120-degree sound dispersion with rich and accurate high, medium and low frequencies. The outer shell enclosure is built with an IP66-rated UV-resistant material so it's suitable for both indoor and outdoor applications. Outdoor mounting accessories can be purchased separately for landscape and surface mounting.

SPECIFICATIONS

- Woofer: 5.25" PP Cone
- Tweeter: 1" Silk Dome
- Power Handling: 60W Max
- Frequency Response: 110Hz - 20kHz
- Impedance: 8 Ohm/ 70V
- IP Level: IP66
