

R62EZ Ceiling Speaker

A step-up from the R61EZ, the R62EZ 6.5" 2-way in-ceiling speaker provides legendary OSD Black sound quality in an easy to install package. Engineered with audio-enhancing features, this single speaker includes a 6.5" injection molded polypropylene woofer cone for optimum sound, high frequencies use a 1" cat eye silk dome tweeter with neodymium magnets, all with an advanced second-order 12dB crossover network with a three position contour switch for both bass and treble (-3dB/0dB/+3dB). The EZ Mount System, simply hold on to the tweeter bridge pushing the speaker up into the cutout and against the drywall, turning it clockwise about 15 degrees. This engages the EZ Mount System and locks the speaker in place.
