Updating Firmware for SRT1, SRT4 and NERO Stream XD/WRA

- 1. Get the correct IP Address of the device(s).
- 2) You also can use the IP Address assigned by the WIFI Router. Your
- computer and speaker must be on the same WIFI Router.

Once Factory Restore is complete, you will need to reconnect the SRT/Stream back your Wi-Fi Network.

Make sure your Phone/Tablet is connected to the Stream or SRT then go back to the OSD PLAYER app.
