

## TREVOCE**12 PRO** Triple Subwoofer

---

Designed for both movie buffs and music lovers, the TreVoce12 Pro features a unique three woofer configuration, which includes one 12 inch active woofer and two passive woofers. This innovative design dramatically enhances bass response, reaching down to 18Hz (-3dB) for a truly immersive experience. The integration of advanced digital amplifier technology ensures powerful, room-shaking performance while maintaining cool operation and optimal energy efficiency—consuming less than 0.5 Watts in standby.
