HT SATELLITE SPEAKER

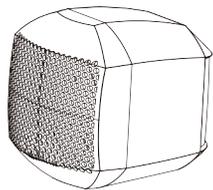

USER'S GUIDE

Safety Instructions

1. Choose a secure mounting location. Ensure the mounting surface is sound where the speaker can firmly attach. If the mounting surface is not sound or if the speaker is not mounted properly damage and or personal injury may occur.
2. Do not use nails, adhesives or other non authorized methods of mounting. Long-term use and vibration may cause failure and damage.
3. Take care not to damage the cone surface of the speaker as this will cause loss in performance and sound quality.
4. Installation or service should always be performed with the power amplifiers power OFF.
5. Always reduce volume levels when switching sources (ex. Tuner / DVD / CD) to avoid damage to the speakers.

User's Guide

Installation

1. Affix the bracket to the wall/mounting surface.
2. Connect the speaker wire to the Phoenix Connector.
3. Attach the Phoenix Connector to the Speaker
4. Attach the speaker to the bracket

Listening

1. Most speaker damage is caused by amplifiers with too little power (wattage)
2. An overdriven amplifier clips the waveforms and leads to speaker distortion.
3. Clipping is usually audible and it may vary from a harsh sound to a fuzzy or unclear sound.
4. If you hear clipping at high volume levels, adjust the amplifiers gain and or volume levels down until the clipping stops.
5. Damage caused by operating the speakers at distorted volume levels is not covered by the warranty.
